Re: Rate Notification; Franchise Agreement for Collection of Refuse and Recyclable Materials, Disposal of Refuse, and Recycling of Recyclable Materials

Dear Mr. Cox,

Attached is our rate review in accordance with our franchise agreement, Section 5; Collection Charges and Exhibit A; WM Rates & Rate Adjustments with the Chester Public Utility District. These sections address rate increases or no impact to existing rates based on the Consumer Price Index, fuel, and unforeseen extraordinary impacts.

The CPI rate increase of 3.99% has been calculated using 75% based on the percentage of change in the Consumer Price Index, All Urban Consumers, U.S. City Average-Item: Garbage and Trash Collection. The fuel index increased to 10.71% calculated using 25% based on the percentage of change in the Fuel Index, All Urban Consumers, West Urban-Item: Motor fuel. As a result of these two indexes, there was a positive price adjustment of 14.70%. According to Exhibit A; Annual CPI/Fuel Adjustments, adjustments in accordance with the CPI and Fuel index shall not be less than 0% or be greater than 6% in any one year regardless of the percentage increase to the CPI and Fuel index.

Therefore, customers will receive an increase of 6% in their rates for the 2022-23-year effective July 1, 2022.

I would also like to take this opportunity for an invitation to discuss with you in the near future to consider amending the rate adjustment index to the more industry-specific Water-Sewer-Trash (WST) index, which could provide Chester customers with a more stable and predictable rate adjustment methodology.

Attached are our calculations, and if you have any questions, please let me know. I look forward to meeting you soon.

Sincerely,

A handwritten signature in cursive script that reads "Joe Cadelago".

Joe Cadelago
Public Sector Manager
