OTHER AUDITOR'S REPORT
Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters  Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

#### INDEPENDENT AUDITOR'S REPORT

Board of Directors Chester Public Utility District Chester, California

#### REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of each fund of the Chester Public Utility District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Chester Public Utility District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Chester Public Utility District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each fund of the Chester Public Utility District, as of June 30, 2020, and the respective changes in financial position and, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the pension and OPEB schedules on pages 29–31, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Information

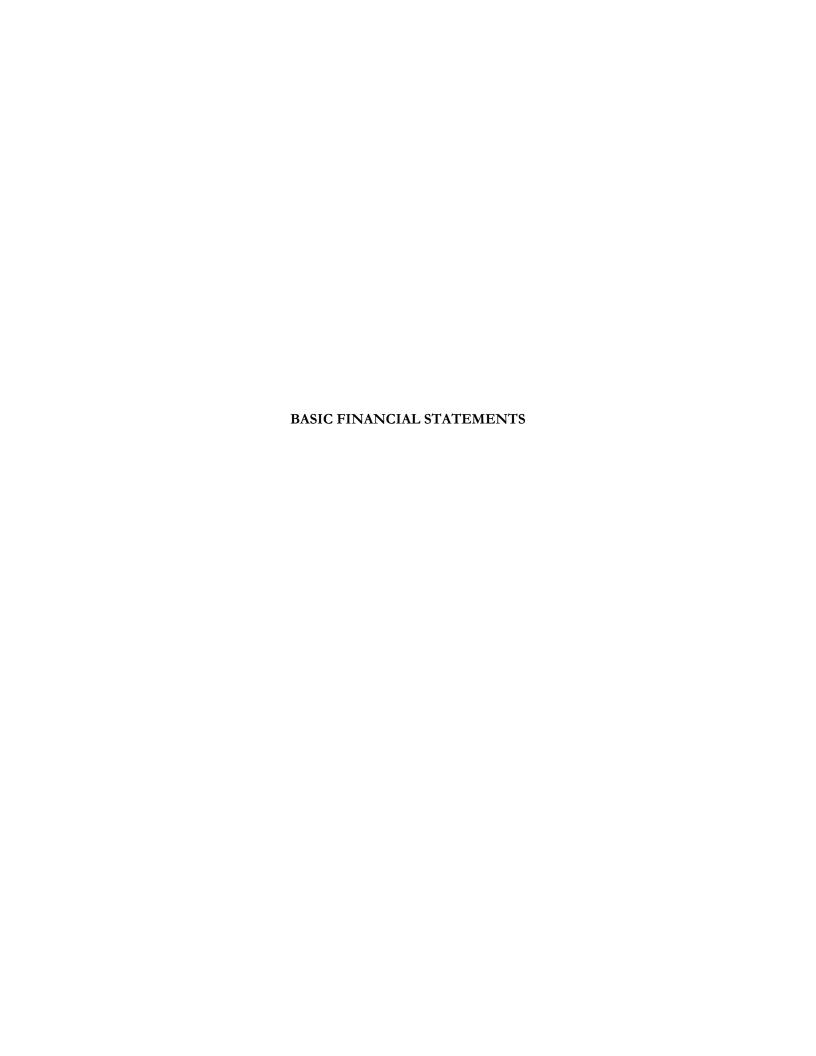

### Other Reporting Required by Government Auditing Standards

M. J. Dennie O carntamey

In accordance with *Government Auditing Standards*, we have also issued our report dated July 8, 2021 on our consideration of Chester Public Utility District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Chester Public Utility District's internal control over financial reporting and compliance.

## NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2020

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 1 - A. Financial Reporting Entity

The fire department and the Chester Public Utility District merged on 2009, under the provisions of the Public Utilities Code ("PUC"), Division 7, Public Utilities District Act, PUC Code §15501, et seq. The District provides street light, water, sewer, fire and ambulance services to approximately 2,400 residents of the District, located in Chester, California.

### 1 - B. Basis of Presentation - Proprietary Fund Type - Major Enterprise Funds

To account for operations (a) that are financed and operated in a manner similar to private business enterprises — where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Street Light Fund. The Street Light Fund is used to account for street lighting subsidization and related expenses.

**Water Fund.** The Water Fund is used to account water sales, fees, property taxes, and water production, treatment, and delivery expenses.

Sewer Fund. The Sewer Fund is used to account for sewer fees, and sewage treatment expenses

**Fire Fund.** The Fire Fund is used to account for the property taxes and contract fire services associated with fire protection services and costs associated with providing fire protection.

**Contract Fire Revenue Fund.** The Contract Fire Revenue Fund accounts for the reimbursement of services provided to the Office of Emergency Management to staff and operate logistical support for forest fires throughout California.

**Ambulance Fund.** The Ambulance Fund is used to account for the ambulance fees and costs associated with providing ambulance services.

#### 1 - C. <u>Basis of Accounting – Measurement Focus</u>

Proprietary Fund Financial Statements. The proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

## NOTES TO THE FINANCIAL STATEMENTS, Continued JUNE 30, 2020

### 1 - D. Assets, Liabilities, and Net Position

**Acquisition Value.** The price that would be paid to acquire an asset with equivalent service potential in an orderly market transaction at the acquisition date, or the amount at which a liability could be liquidated with the counterparty at the acquisition date.

**Prepaid Items.** Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

**Accrued Receivables.** All trade and property tax receivables are shown net of an allowance for uncollectibles. The District considers property taxes receivable collected within sixty days after year-end to be available and recognizes them as revenues of the current year.

Capital Assets. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at acquisition value. The District maintains a capitalization threshold of \$5,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise fund is also capitalized. Depreciation of capital assets is computed and recorded by the straight-line method over the following estimated useful life:

Asset Class	Estimated Useful Life
Utility Plant and Infrastructure	10 - 60
Meters and Equipment	5 - 20
Vehicles and Office Equipment	3 - 7

**Interfund Balances.** On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due from other funds" and "Due to other funds."

**Pension.** For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California Public Employee Retirement System ("Cal PERS") and additions to/deductions from Cal PERS' fiduciary net position have been determined on the same basis as they are reported by Cal PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Net Position.** Net Position represents the difference of assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net Position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets.

### 1 - E. Revenue and Expenditures/Expenses

**Revenues – Exchange Transactions (Program Revenue).** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

## NOTES TO THE FINANCIAL STATEMENTS, Continued JUNE 30, 2020

### **Property Tax Calendar:**

July 1 Beginning of fiscal year

August 31 Unsecured tax deadline. A 10% penalty is added as of 5:00 p.m. (\*)

October Secured tax bills are mailed for current fiscal year. Tax liens recorded for unpaid unsecured taxes.

November 1 First installment of secured taxes is due and payable

December 10 First installment of secured taxes payment deadline. A 10% penalty is added as of 5:00 p.m. (\*)

January 1 Tax Lien date (affects the upcoming fiscal year)
February 1 Second installment of secured taxes due and payable.

April 10 Second installment of secured taxes payment deadline. A 10% penalty plus a \$20.00 cost is added

as of 5:00 p.m. (\*)

May Treasurer-Tax Collector mails delinquent notices for any unpaid secured taxes.

June 30 End of fiscal year

(\*) If a delinquent date falls on a weekend or holiday, the delinquent date is the next business day.

Operating Revenues and Expenses. Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities. Operating expenses result from transactions directly associated with the fund's principal services.

#### **Compensated Absences:**

Administrative personnel vacation, accrual shall be computed from date of hire: a. During the first through second year of compensated and continuous service, employees shall accrue 80 hours of vacation, (10 days). b. During the third through fourth year of compensated and continuous service, employees shall accrue 96 hours of vacation, (12 days). c. During the fifth through ninth year of compensated and continuous service, employees shall accrue 136 hours of vacation, (17 days). d. During the tenth year of compensated and continuous service, and each year thereafter, employees shall accrue 176 hours of vacation, (22 days).

Fire personnel vacation, accrual shall be computed from date of hire: a. During the first through fourth year of compensated and continuous service, employees shall accrue 192 hours of vacation, (8 shifts). b. During the fifth through seventh year of compensated and continuous service, employees shall accrue 240 hours of vacation, (10 shifts). c. During the eighth through tenth year of compensated and continuous service, employees shall accrue 288 hours of vacation, (12 shifts). d. During the eleventh year of compensated and continuous service, and each year thereafter, employees shall accrue 336 hours of vacation, (14 shifts). e. All employees will receive one (1) non-accruing paid personal development day a calendar year.

The balance of accrued unused vacation leave shall be limited to the number of days equal to two times the current year's rate of accrual. Any time an employees accrued unused vacation leave reaches the limit; further accrual will cease until the employee takes vacation time off and brings their accrued unused amount below the limit. The General Manager or designee shall allow the employee to "cash in" excess vacation, if the affected employee can demonstrate that they were unable to take vacation time off.

Sick leave, upon death or retirement, or upon layoff or resignation in good standing after ten (10) years of continuous and compensated service an employee or said employee's estate shall be paid twenty-five (25) percent of any accrued, unused sick leave, the rate shall be thirty-five (35) percent after 15 years and fifty (SO) percent after 20 years of service. Valuation shall be on the basis of the hourly equivalent of said employee's monthly salary at the effective date of separation or layoff. The employee shall have the option of using their unused sick leave as a service credit for retirement purposes, but not both.

## NOTES TO THE FINANCIAL STATEMENTS, Continued JUNE 30, 2020

**Estimates.** The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Budgetary Data.** Per Board Policy 3020, an annual budget proposal shall be prepared by the General Manager. Prior to final approval by the Board of Directors, the General Manager will meet with the Budget/Finance Committee for review and input on budget drafts. Notice of the proposed annual budget shall be published in a local newspaper and presented to the public at a Public Hearing for comments prior to adoption by the Board of Directors. The Board of Directors shall approve an annual budget at its regular meeting in June of each year. The approved Budget goes into effect on July 1st.

#### NOTE 2 – DEPOSITS AND INVESTMENTS

### 2 - A. Summary of Cash and Cash Equivalents

	Business-Type Activities					
Cash on hand	\$	400				
Deposits in financial institutions		264,459				
LAIF		1,291				
Money market		1,003,481				
Total Cash and Cash Equivalents	\$	1,269,631				

## 2 - B. Cash Deposits and Certificates of Deposit

Custodial Credit Risk. There is a risk that, in the event of a bank failure, the District's deposits may not be returned. The District's deposit policy requires that all deposits are covered by the Federal Depository Insurance Corporation ("FDIC") or are collateralized as required by Statutes of the State. As of June 30, 2020, the carrying amount of the District's bank deposits (including the certificates of deposit) were \$1,080,482, and the respective bank balances totaled \$1,068,099. Of the total bank balance, \$500,000 was insured through the FDIC. The remaining \$568,099 was collateralized with pooled securities held by the financial institutions' trust departments. These securities are held in the name of the financial institution and not that of the District.

### NOTE 7 – LONG-TERM LIABILITIES

## 7 - A. Long-Term Liabilities Summary

Long-term liability activity for the year ended June 30, 2020 was as follows:

	Balance		Balance		
	_ July 01, 2019	Additions		Ju	ne 30, 2020
Compensated absence	\$ 94,000	\$	15,000	\$	109,000
Net pension liability ("NPL")	1,564,000		74,000		1,638,000
Other postemployment benefits	827,000		2,025,000		2,852,000
Total Long-Term Liabilities	\$ 2,485,000	\$	2,114,000	\$	4,599,000

## 7 - B. Compensated Absences

The unpaid employee vacation for the year ended June 30, 2020 was \$109,000 for the Water Fund, Sanitation Fund, Fire Fund, and Ambulance Fund, respectively.

## NOTES TO THE FINANCIAL STATEMENTS, Continued JUNE 30, 2020

### 7 - C. Net Pension Liabilities ("NPLs")

The District's pension activities between the District and Cal PERS for the year ended June 30, 2020, resulted in net pension obligations and other related balances as follows:

	 Cal PERS Risk Pool			
	Safety	Mise	cellaneous	Total
Net Pension Liability	\$ (922,000)	\$	(716,000) \$	(1,638,000)
Deferred Outflows of Resources	368,000		182,000	550,000
Deferred Inflows of Resources	(26,000)		(48,000)	(74,000)
Effect on Net Position	\$ (580,000)	\$	(582,000) \$	(1,162,000)

For the year ended June 30, 2020, the District's NPLs was \$348,000, \$348,000, \$434,000, and \$434,000 for the Water Fund, Sanitation Fund, Fire Fund, and Ambulance Fund, respectively. See Note 8 for additional information regarding the pension plans and activities.

### 7 - D. Net Pension Liabilities

For the year ended June 30, 2020, the District's OPEB obligation was \$196,000, \$196,000, \$286,000, and \$149,000 for the Water Fund, Sanitation Fund, Fire Fund, and Ambulance Fund, respectively. See Note 9 for additional information regarding the pension plans and activities.

#### NOTE 8 – DEFINED BENEFIT PENSION

**Plan Description.** The Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the Plan or PERF C) is administered by the CalPERS. The Plan consists of a miscellaneous risk pool and a safety risk pool, which are comprised of individual employer miscellaneous and safety rate plans, respectively. Individual employers may sponsor more than one miscellaneous and safety rate plan. Each individual employer rate plan generally has less than 100 active members.

The Plan was established to provide retirement, death and disability benefits to public agency rate plans with generally less than 100 active members. The benefit provisions for PERF C employees are established by statute. A full description regarding the number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information for the respective rate plan is listed in the respective rate plan's June 30, 2018 Annual Valuation Report ("funding valuation"). Details of the benefits provided can be obtained in Appendix B of the funding valuation report. This report and CalPERS' audited financial statements are publicly available reports that can be found on CalPERS' website at <a href="https://www.calpers.ca.gov/page/forms-publications">https://www.calpers.ca.gov/page/forms-publications</a>.

## NOTES TO THE FINANCIAL STATEMENTS, Continued JUNE 30, 2020

**Benefit Provided and Contributions.** Per the Chester Public Utility District June 30, 2017 actuarial valuation report for the pension plan, the following are the benefits and employee and employer contribution requirements **Benefit Group** 

	Benefit Group

Total Employer Contributions	\$84,426	\$25,696	\$20,076	\$9,799		

### <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources</u> Related to Pensions

At June 30, 2020, the District reported a liabilities of \$922,000 and \$716,000 for safety and miscellaneous, respectively, for its proportionate shares of the net pension liabilities. The schedule of employer allocations for components of net pension liability provides allocation factors by employer for rate plans within the miscellaneous and safety risk pools based on the following allocation methodology:

The schedule of employer allocations for components of net pension liability includes two ratios:

- 1) Actuarial Accrued Liability Determined based on the actuarial accrued liability from the most recent actuarial valuation report as of June 30, 2018 used for funding purposes.
- 2) Market Value of Assets Determined based on the sum of the market value of assets from the most recent actuarial valuation report as of June 30, 2018 used for funding purposes plus supplemental payments made by employers during the current measurement period to reduce their unfunded actuarial accrued liabilities.

The schedule of employer allocations for components of net pension liability is based on actuarial valuation reports that are one year in arrears. As such, there will be a one-year lag between the time an employer enters the Plan and the fiscal year the employer is first included on the schedule of employer allocations for components of net pension liability. Employers joining the Plan during the fiscal year ended June 30, 2019, will be included in the schedule of employer allocations for components of net pension liability as of and for the fiscal year ended June 30, 2020.

The employers' proportionate share percentages of the miscellaneous and safety risk pools were first determined at the rate plan level. The employers' total proportion of the respective miscellaneous and safety risk pools reflects the sum of the proportions of the respective miscellaneous and safety rate plans.

## NOTES TO THE FINANCIAL STATEMENTS, Continued JUNE 30, 2020

When applying the allocation methodology to the collective miscellaneous or safety risk pool pension amounts, employers should determine proportionate shares using the employer allocation factors as follows:

- 1) Total Pension Liability (TPL) Allocate based on the employer's share of the actuarial accrued liability.
- 2) Fiduciary Net Position (FNP) Allocate based on the employer's share of the market value of assets plus additional payments.
- 3) Net Pension Liability (NPL) After completing the above calculations, subtract FNP from TPL to calculate the employer's NPL.
- 4) Deferred Outflows of Resources, Deferred Inflows of Resources Allocate based on the employer's share of the net pension liability as noted in 3) above.
- 5) Pension Expense After completing the above calculations, calculate the employer's share of collective pension expense based on the employer's share of changes in net pension liability, changes in deferred outflows and deferred inflows of resources, and the employer's contributions for the fiscal year ended June 30, 2019. The schedule of collective pension amounts does not reflect employer-specific amounts such as changes in proportion and employer contributions to PERF C subsequent to the measurement date. Appropriate treatment of such amounts is the responsibility of the employers.

An employer's proportionate share of pension amounts for PERF C equals the sum of the employer's proportionate shares of pension amounts for the respective miscellaneous and safety risk pools.

	Jun. 30, 2019	Jun. 30, 2018	Difference
Safety Plan:			
Total Pension Liability Allocation Basis	0.0001380	0.0001106	0.0000274
Fiduciary Net Position Allocation Basis	0.0001345	0.0000971	0.0000374
Miscellaneous Plan:			
Total Pension Liability Allocation Basis	0.0001459	0.0001339	0.0000120
Fiduciary Net Position Allocation Basis	0.0001365	0.0001194	0.0000171

For the year ended June 30, 2020, the District recognized pension expense of \$414,000. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Outflows /

	(Inflows) of Resources				
		Safety	Misc.	Total	
Changes of assumptions	\$	30,000 \$	22,000 \$	52,000	
Differences between expected and actual experience		61,000	46,000	107,000	
Net difference between projected and actual earnings on pension plan		(13,000)	(12,000)	(25,000)	
Differences between District contributions and proportionate share of					
contributions		101,000	40,000	141,000	
Changes in proportion		(13,000)	(36,000)	(49,000)	
District contributions subsequent to the measurement date		177,000	73,000	250,000	
Total	\$	343,000 \$	133,000 \$	476,000	

## NOTES TO THE FINANCIAL STATEMENTS, Continued JUNE 30, 2020

The District reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

#### Year ended June 30:

2021	\$ 430,000
2022	11,000
2023	30,000
2024	5,000
Total	\$ 476,000

Actuarial Methods and Assumptions. The collective total pension liability for the June 30, 2019 measurement period was determined by an actuarial valuation as of June 30, 2018, with update procedures used to roll forward the total pension liability to June 30, 2019.

The collective total pension liability was based on the following assumptions:

Investment rate of return 7.15% Inflation 2.50%

Salary increases Varies by Entry Age and Service

Mortality rate table<sup>1</sup> Derived using CalPERS' Membership Data for all Funds Contract COLA up to

2.50% until Purchasing Power

Post-retirement benefit increase Protection Allowance Floor on Purchasing Power applies

Long-Term Expected Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

<sup>&</sup>lt;sup>1</sup> The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

## NOTES TO THE FINANCIAL STATEMENTS, Continued JUNE 30, 2020

The expected real rates of return by asset class are as followed:

Asset class <sup>1</sup>	<b>Assumed Asset Allocation</b>	Real Return Years 1 - 10 <sup>2</sup>	Real Return Years 11 +3
Global equity	50.00 %	4.80 %	5.98 %
Fixed income	28.00	1.00	2.62
Inflation assets	-	0.77	1.81
Private equity	8.00	6.30	7.23
Real assets	13.00	3.75	4.93
Liquidity	1.00	-	(0.92)

<sup>&</sup>lt;sup>1</sup> In the System's CAFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-Term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

**Discount Rate.** The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate. The following presents the collective net pension liability calculated using a discount rate of 7.15%, as well as what the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15%) or 1-percentage-point higher (8.15%) than the current rate:

	1	% Decrease	Current Discount	1% Increase
		(6.15%)	Rate (7.15%)	(8.15%)
Safety NPL	\$	1,069,000	\$ 922,000	\$ 424,000
Miscellaneous NPL		1,365,000	716,000	558,000
	\$	2,434,000	\$ 1,638,000	\$ 982,000

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial report at <a href="https://www.calpers.ca.gov/docs/forms-publications/cafr-2020.pdf">https://www.calpers.ca.gov/docs/forms-publications/cafr-2020.pdf</a>.

#### NOTE 9 – POSTEMPLOYMENT HEALTHCARE PLAN

Plan Description. Pursuant to the Public Employees' Medical And Hospital Care Act ("PEMHCA"), as set forth in Government Code §22750 – §22948. The plan is a single-employer, defined benefit OPEB plan administered by the District. Government Code §22777 provides that "health benefit plan" means any program or entity that provides, arranges, pays for, or reimburses the cost of health benefits for employees and retirees and their surviving family members with health benefits provided through the California Public Employee's Pension System ("CalPERS"). No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

<sup>&</sup>lt;sup>2</sup> An expected inflation of 2.00% used for this period.

<sup>&</sup>lt;sup>3</sup> An expected inflation of 2.92% used for this period.

## NOTES TO THE FINANCIAL STATEMENTS, Continued JUNE 30, 2020

Benefits Provided:

Benefit types provided Medical only
Duration of Benefits Life of retiree

Required Service 10 years creditable service

Minimum Age 50 for Safety Classic, 55 for Miscellaneous, 57 for PEPRA Safety

District Contribution With ten years of service 50% of total up to 100% with twenty years of service

### Employees Covered by Benefit Terms. At June 30, 2020, the membership consisted of the following:

Inactive employees or beneficiaries currently receiving benefit payments	6
Inactive employees entitled to but not yet receiving benefit payments	1
Active employees	12
Total	19

**Total OPEB Liability.** The District's total OPEB liability of \$2,854,000 was measured in conformity with the requirements in GASB No. 75, paragraphs 225 and 226 for the alternative measurement method, as of June 30, 2020.

Measurement Assumptions and Other Inputs. The total OPEB liability in the June 30, 2020 valuation was determined using the following assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation Rate: 1.20%, based on <a href="https://data.bls.gov/timeseries/CUUR0000SA0L1E?output\_view=pct\_12mths">https://data.bls.gov/timeseries/CUUR0000SA0L1E?output\_view=pct\_12mths</a>
2.66%, <a href="https://my.spindices.com/indices/fixed-income/sp-municipal-bond-20-year-high-grade-">https://my.spindices.com/indices/fixed-income/sp-municipal-bond-20-year-high-grade-</a>

rate-index

Mortality: CalPERS Mortality Rates, Safety and Miscellaneous

Benefit Increase: CalPERS OPEB ASSUMPTION MODEL For Actuarial Valuations and Alternative

Measurement Method Analyses Based on Data Measured After August 15, 2012

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees Chester Public Utility District Chester

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of each major fund of the Chester Public Utility District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Chester Public Utility District's basic financial statements, and have issued our report thereon dated July 8, 2021.

#### INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered Chester Public Utility District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Chester Public Utility District's internal control. Accordingly, we do not express an opinion on the effectiveness of Chester Public Utility District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether Chester Public Utility District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
