April 29, 2020

Dear Chester Resident,

You are receiving this letter to notify you that the Chester Public Utility District Board of Directors approved a new Solid Waste Collection Franchise agreement with Waste Management at the April 21, 2020 Regular Board meeting. The agreement contains a service rate increase for solid waste collection and disposal and contains an annual CPI adjustment to be made each July 1st through June 30, 2030. The proposed service rates effective July 1, 2020 are included with this notice.

The CPUD Board of Directors will meet on Tuesday June 16, 2020, and hold a public hearing to receive public comments on the proposed monthly solid waste collection and disposal service rates. The meeting will begin at 3:00pm at the Chester Public Utility District building, 251 Chester Airport Road, Chester, California. This meeting may be affected by the current “stay at home” order proclaimed by the Governor Newsome. Instructions on how to participate in this meeting by phone will be found on the posted agenda by June 12, 2020

As a resident of Chester, you have the right to file a written protest in regards to the recommended solid waste collection and disposal service rates. Written protests must contain the following information to be considered valid by the CPUD Board of Directors:

- 1) Clearly state your opposition to the recommended monthly solid waste collection and disposal service rates
- 2) Your parcel(s) APN number(s)
- 3) Original signature

Written protests will be accepted at the CPUD office located at 251 Chester Airport Road, or by mailing them to Chester PUD, P.O. Box 503, Chester, CA 96020, until 2:00pm on June 11, 2020. At the June 16, 2020 Board meeting, the Chester Board of Directors will publicly announce the number of valid protests received and consider raising the solid waste collection and disposal service rates. If a majority of Chester residents file valid protests, the solid waste collection and disposal monthly service rates cannot be put into effect.

If you have questions regarding the proposed solid waste collection and disposal service rates, please contact me at (530) 258-2171 or via email at frankmotzkus.cpud@frontier.com.
